

PUBLISHER COLLABORATIONS AND LINKS FOR WIDER NETWORK

This *Bulletin* continues a regular exchange of information and ideas with *Industrial Heating* and *The Monty*. We are now very glad to add: *Tratamientos Termicos*. This combination represents a very extensive readership and linkage on heat treatment and surface engineering globally

The Spanish Worldwide Heat treatment magazine covering Spain, Portugal, Latin America, United States and more countries, published since 1991 www.metalspain.com and www.metalspain.com/TEnglish.html

Industrial Heating

The world's largest and most comprehensive integrated media resource focusing on high-temperature thermal processing technology and practical applications. Editorial coverage includes: Heat Treating, Process Control & Instrumentation, Ceramics & Refractories/Insulation, Industrial Gases/Combustion, Vacuum/Surface Treatment, Materials Characterization & Testing, Melting/Forming/Joining, Heat & Corrosion Resistant Materials/Composites, Sintering/Powder Metallurgy www.industrialheating.com

theMonty.com

The Monty – monthly newsletter and website www.themonty.com Contents include up-to-date heat treatment news from companies, listings of used equipment, business opportunities, and employment; plus short articles and opinion pieces.

Steel Statistical Yearbook 2012

The World Steel Association has posted on its website the Steel Statistical Yearbook 2012, with the 2011 productions of each country, including hot metal, DRI/HBI, crude steel (divided by process and by casting type) and each type of long and flat products. The contents were finalised in October 2012. The publication can be downloaded as a pdf. Hard copies available at EUR 50.

This yearbook presents a cross-section of steel industry statistics that are exchanged or published by the World Steel Association with co-operation of its members and many other bodies (for example: Eurofer, Instituto Latinoamericano del Fierro y el Acero (ALACERO, formerly ILAFA), ISSB Limited – formerly Iron and Steel Statistics Bureau (UK), South East Asia Iron and Steel Institute (SEAISI), Arab Iron and Steel Union (AISU), International Metallurgists Union, *Metal Bulletin*, MIDREX, United Nations Statistical Division, United Nations Trust Fund Project on Iron Ore Information}

STEEL IN CARS AND TRUCKS

After successful conferences in Wiesbaden (twice) and Salzburg, the 4th SCT will take place in Braunschweig, Germany. The event is organized by the German Steel Institute VDEh (Verein Deutsche Eisenhüttenleute) and supported by IFHTSE members AWT Bremen Germany and ASMET, the Austrian metals association. Regular contributions to SCT cover heat treatment of gears and bearings, but the event will also cover flat products (an increasing volume of heat treated sheet metal components are e.g. press quenched; solving the tribological and anticorrosion problems also involves surface engineering).
